SUMMARY

Motivated and detail-oriented Computer Science undergraduate with hands-on experience in **Data Analytics, Power BI, SQL, Excel, and Python**. Skilled in building **interactive dashboards, cleaning and analyzing datasets, and generating actionable business insights through data visualization techniques**. Passionate about solving real-world problems using data-driven approaches and continuously learning modern analytical tools and technologies.

EDUCATION

B.Tech in Computer Science , Kamla Nehru Institute of Physical and Social Sciences	2022 — 2026
12th Grade in Higher Secondary , Saraswati Vidya Mandir	Sultanpur, India
10th Grade , Guru Charan Kaur Public School	Sultanpur, India

SKILLS

Programming HTML, CSS, Basics of JavaScript, Python, Angular JS, Fast APIs
Data Analysis NumPy, Pandas, Excel, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Data Interpretation, Statistical Analysis, Business Insights, Data Preprocessing
Data Visualization Power BI, Dashboard Development, KPI Reporting, Interactive Dashboards, Data Storytelling, Report Generation, Trend Analysis, Power Query DAX Basics
Databases MySQL, SQL, Queries, DBMS, Joins, Aggregate Functions, CRUD Operations, Data Filtering
Tools & Platforms Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Canva, Microsoft Excel
Excel Pivot Tables, VLOOKUP/XLOOKUP, Conditional Formatting, Charts & Graphs, Data Validation, Excel Dashboards
Python Libraries Matplotlib, Seaborn, OpenPyXL, Requests Library
Soft Skills Problem Solving, Communication, Teamwork, Analytical Thinking, Time Management, Presentation Skills, Adaptability

PROJECTS

Customer Management System

- Developed a Customer Management System to store and manage customer records efficiently. Implemented features like adding, updating, searching, and deleting customer data with database integration. Designed a simple and user-friendly interface to improve data management and reduce manual work.

Virtual Assistant using Python [Link](#)

- Developed a voice-controlled virtual assistant using Python capable of performing tasks like opening applications, searching Wikipedia, telling date & time, and web browsing through voice commands. Integrated speech recognition and text-to-speech functionalities to enable smooth human-computer interaction.

Adidas US Sales Dashboard using Power BI [Link](#)

- Created an interactive Power BI dashboard to analyze Adidas US sales data, including revenue, profit, product performance, and regional sales trends. Used data visualization tools and KPIs to generate business insights and support data-driven decision-making.

Uber Dashboard using Power BI [Link](#)

- Developed an interactive Power BI dashboard to analyze Uber ride data, including trip trends, booking patterns, revenue, and customer insights. Used data visualization and KPI analysis to identify business trends and improve decision-making through clear and dynamic reports.
